1.0 DOCUMENT INFORMATION

1.1 Purpose

The System Requirements Document outlines the agreed system specifications. Once approved, it becomes the baseline to ensure the system meets business goals. Sign-off is required for development to start, and any changes must follow the System Enhancement Management process.

1.2 Intended Audience

The intended audience for this document includes project stakeholders and any team members involved in defining, implementing, or validating the system requirements.

1.3 Revision History

This section records all modifications to the document until it reaches Version 1.0, at which point it is finalized and established as the baseline for future reference. Once baselined, any new changes will be assessed based on their severity — significant changes may result in an addendum, while less critical updates may be handled through a formal change request.

Version No	Date	Revised By	Reason for Revision
0.1	23.07.2026 (Thurs)	Lim Yi Link	Initial Draft
0.2	30.07.2026 (Thurs)	Lim Yi Link	a. Added sample scenario in Section 2.2.5 b. Added expected behaviour in Section 2.2.6
1.0	30.07.2026 (Thurs)	Lim Yi Link	Send out for external review

1.4 Glossary of Terms

#	Abbreviation / Term	Interpretation / Description
1	Potential UCD	Prospective Used Car Dealer going through the onboarding journey.
2	Assignee	eAuto internal staff / BackOffice reviewer handling the application.
3	PA	Pre-Application

2.0 REQUIREMENT

2.1 High-Level Requirement Overview

#	Item	Description
2.1.1	Enhancement Overview	Implement three enhancements to the eAuto Application flow for potential UCDs: automated reminder emails, a one-time application expiry extension, and application link reactivation.
2.1.2	Key Value(s) Expected	Reduce onboarding drop-off by proactively reminding UCDs of pending actions, give assignees flexibility to extend an application once, and allow expired application links to be reactivated after payment.
2.1.3	Additional Note(s)	Ops team to provide 5 email templates in total: 6 reminder scenarios.

2.2 Key Highlights and Baseline Requirements

The following key highlights and requirements were established during the initial sync-up sessions with the requestor. As this forms the baseline, any changes requested thereafter may result in adjustments to scope, timeline, or deliverables, for which the requestor will be responsible to review and confirm.

2.2.1 Background

#	Affected Item	Description
1	Project	eAuto
2	Portal	Potential UCD
3	Module	UCD Application Form
4	Request	Implement automated reminder emails, a one-time application expiry extension, and application link reactivation for potential UCDs.
5	Additional Note	-

2.2.2 Existing Issue & Expected Behaviour

#	Item	Description
1	Existing Issue / Behaviour	There are currently no automated reminders sent to potential UCDs, no mechanism for an assignee to extend an application before it expires, and expired application links cannot be reactivated.
2	Expected New Handling / Behaviour	The system sends automated reminder emails at defined triggers, allows the assignee to extend an application once, and allows expired application links to be reactivated via email after payment (valid for 90 days from payment date).

2.2.3 Affected Pages

#	Affected Pages	Description
1	Application (Assignee / BackOffice view)	Extend button and entry of extension remarks.
2	Application – Right Sidebar	Display of extension remarks.
3	Email Templates	6 email templates to be provided / updated: a. Application approval reminder b. Application expiry reminder (2 months) c. Application expiry reminder (1 month) d. Payment reminder e. Hardcopy submission reminder f. Reactivation email *Note: A button will be added in the existing expiration email template for application reactivation.*
4	Reactivation Confirmation Page	Redirect to a new tab for the UCD to confirm application link reactivation.

2.2.4 Automated Reminder Emails

#	Item	Description	Acceptance Criteria
1	Application approval reminder	System sends a reminder email to the potential UCD 3 days after the Assignee approves the application, prompting them to complete the application.	Reminder email is sent automatically 3 days after application approval when the application is still incomplete.
2	Application expiry reminder (2 months)	System sends a reminder email 2 months before the application expiration date to complete the application.	Reminder email is sent automatically 2 months before the application expiry date.
3	Application expiry reminder (1 month)	System sends a reminder email 1 month before the application expiration date to complete the application.	Reminder email is sent automatically 1 month before the application expiry date.
4	Payment reminder	System sends a payment reminder email 1 day after the Softcopy Docs status = "Checked" if the UCD has not made payment.	Payment reminder email is sent automatically 1 day after Softcopy Docs = "Checked" when no payment has been received.
5	Hardcopy submission reminder	System sends a reminder email 3 days after the UCD has made payment, prompting them to submit the required hardcopy documents.	Hardcopy reminder email is sent automatically 3 days after payment is completed.
6	Email templates (Ops)	5 email templates (one per scenario above) to be provided by the Ops team.	All 5 reminder email templates provided by Ops are configured and used for the correct scenario.

2.2.5 Application Expiry Extension

#	Item	Description	Acceptance Criteria
1	Extend button availability	The Extend button is available only when BOTH conditions are met: a. The UCD can submit registration documents (Softcopy & Hardcopy) after Application Status = Approved; AND b. The "Hardcopy & Acc Created" status is **NOT "Registered".** *Note: The Extend button is displayed regardless of the current status of Softcopy Docs and Hardcopy & Acc Created (except when Hardcopy & Acc Created = Registered).*	Extend button is visible/enabled only when both conditions are met and the application has not been extended before.
2	Extend button unavailable	The Extend button is not available when the Hardcopy status = "Registered".	Extend button is hidden/disabled when Hardcopy status is "Registered".
3	One-time extension	Each application is eligible for **one (1) 30-day extension** only. Special Scenario: a. If the application expires after the 30-day extension, the Assignee must pay the **RM108 reactivation fee** to reactivate the application. b. Once reactivated, the application is **not eligible for any further extension**.	System prevents a second extension; the Extend button becomes unavailable after one extension.

#	Item	Description	Acceptance Criteria
		c. If the application expires again, it cannot be extended and another reactivation is required. **Loop scenario:** Application Expired → Extended → Expired → Reactivated → Expired Again → Reactivated (No Extension Allowed)	
4	No auto email	No automated email is triggered by the extension action.	No email is sent when an extension is performed.
5	Extension remarks	a. The assignee can enter remarks for each extension. b. The Remarks field follows the existing behaviour of the Remarks field in the Application. c. Remarks are displayed on the right sidebar.	Assignee can enter remarks during extension; remarks are saved and displayed in the right sidebar.

2.2.6 Application Link Reactivation

#	Item	Description	Acceptance Criteria
1	Reactivate button in email	a. Add a button in the existing email template to reactivate the application. b. When clicked, the UCD is redirected to a new tab showing a confirmation page.	Reactivate button appears in the email; clicking it opens a new tab displaying the reactivation confirmation page.
2	Reactivation confirmation page	The UCD confirms reactivation on the confirmation page.	Confirmation page loads in a new tab and allows the UCD to proceed with reactivation.
3	Reactivation validity (90 days)	Once the UCD has successfully paid the **Pre-Application Fee (RM108)**, the system shall: a. Reactivate the application link for **90 days**, calculated from the payment date. b. Create a new **Pre-Application (PA)** record for each reactivation. c. Allow the UCD to continue the onboarding process using the **same application link**. d. Ensure the **latest Pre-Application (PA) record** and the associated **Application** reflect **the latest SSM document** information for SSM Registered Company.	a. After successful payment of the Pre-Application Fee (RM108), the application link shall be reactivated and remain valid for 90 days, calculated from the payment date. b. A new Pre-Application (PA) record/transaction shall be created for each successful reactivation. c. The latest Pre-Application (PA) record and the associated Application Form (A Form) for SSM Registered Company shall display the latest SSM document information.

#	Item	Description	Acceptance Criteria
4	Technical limitation (backend)	a. An Application can only be associated with the latest Pre-Application (PA) record. b. Previous PA records (e.g. PA v1) will no longer contain the application link after a reactivation. c. After reactivation, the Application is linked only to the latest PA record (e.g. PA v2)	Only the latest Pre-Application (PA) record shall retain the application link. Previous PA records shall no longer contain the application link.
5	No maximum reactivation limit	There is no maximum limit on the number of reactivations.	The UCD can reactivate the application any number of times.
6	Reactivation after re-expiry (extended application)	Special scenario: a. If an application that was previously extended expires again, the potential UCD is required to pay RM108 to reactivate the link again. b. Upon successful payment, the application is reactivated for 90 days from the payment date.	When an extended application expires again, the UCD must pay RM108 before the link is reactivated; the application is then valid for 90 days from the payment date.
7	Email template	Edit and add reactivate button to existing expired email template. Updated Email Template: Dear Sir / Madam,	Reactivation email template with a working reactivate button.

#	Item	Description	Acceptance Criteria
		We regret to inform you that your application has expired due to no action being taken within the stipulated validity period of 90 days, which expired on **[Expiration Date]** at 12:00 PM. If you still wish to proceed with the application process, you may reactivate your application by clicking the button below. Once reactivated, you may continue your application through the eAuto portal. **[Reactivate Application button]** For further assistance or inquiries, please contact us at apply@eauto.my. Best regards, eAuto Sdn Bhd Level 15 Sunway Tower Jalan Ampang, 50450 Kuala Lumpur Customer Service: 03-27798899 WhatsApp: 012-2001324 **[eAuto Logo]**	

2.2.7 Pending Items

#	Item	Status
1	Ops team to provide 6 email templates (5 reminder scenarios + 1 reactivation email with reactivate button).	Pending
