1. DOCUMENT INFORMATION

This section provides essential details about the System Requirements Document, including its purpose, scope, intended audience, and version history. It serves as a foundational reference for all stakeholders involved in the project, ensuring a shared understanding of the document's objectives and structure.

1.1 Purpose

The System Requirements Document outlines the agreed system specifications. Once approved, it becomes the baseline to ensure the system meets business goals. Sign-off is required for development to start, and any changes must follow the System Enhancement Management process.

1.2 Intended Audience

The intended audience for this document includes project stakeholders and any team members involved in defining, implementing, or validating the system requirements.

1.3 Revision History

The section records all modifications to the document until it reaches Version 1.0, at which point it is finalized and established as the baseline for future reference.

Once the document is baselined at Version 1.0, any new changes will be assessed based on their severity. If the changes are significant, an addendum may be created to address them. For less critical updates, a formal change request may be submitted, ensuring that all modifications are properly reviewed, approved, and documented while maintaining alignment with the original requirements and project objectives.

Version No	Date	Revised By	Reason for Revision
0.1	28.07.2025 (Mon)	Aishah Dhabitah Nor Azman	Initial Draft
1.0	29.07.2025 (Tue)	Aishah Dhabitah Nor Azman	To send out for external review
1.1	27.04.2026 (Mon)	Aishah Dhabitah Nor Azman	To amend requirement based on latest feedback - To include materials from Zurich and include the latest insurance control sequence
1.2	15.05.2026 (Fri)	Chee Mei Jia	To amend requirement based on latest feedback - includes cover type clarification per vehicle category, TPFT eligibility conditions, postcode handling, Optional Coverage behaviour updates, Zurich TPFT coverage exclusions, and new Landing Page section.

Note: Update made to the document is highlighted in blue

1.4. Glossary Of Terms

This section defines key terminology and acronyms used throughout the document, providing clarity and ensuring a common understanding among all audiences of the document.

#	Abbreviation/ Terminology/Terms	Interpretation/Description
1	BO user	Back Office user
2	UCD	Used Car Dealer
3	PO	Product Owner

1.5 Associated Document(s) – if any

This section records essential information and recommends reviewing the following documents, as they provide valuable support and context for the contents of this document.

#	Item	Location / URL	Rationale for Relevance

2.0 REQUIREMENT

This section outlines the key specifications needed for the successful development of the system. It includes two main parts: *High-Level Requirements*, which summarize the project's goals and essential functions, and *Specific Requirements*, which detail the exact criteria and tasks the system must meet. Together, these components meant to provide a clear understanding of what is needed to guide the development process and align stakeholder expectations.

2.1 High Level Requirement

The section reflects the general requests of stakeholders while providing a broad overview and context for the project's goals without delving into detailed specifications.

High Level Requirement 2.1.1 [Secarang][Insurance] To onboard Zurich Takaful under Pemaju Eksklusif Sdn. Bhd. to the Secarang portal.

#	Item	Description
a	Problem Statement	a. Present handling Currently, Syarikat Takaful Malaysia is the sole Takaful provider for motor insurance on the Secarang portal. The available coverage types include Comprehensive and Third Party, Fire and Theft (TPFT). b. Reason for raising this request To enable Zurich Takaful as the insurance provider for motor vehicles—both private and company—on the eAuto and Secarang platforms~~, replacing Syarikat Takaful Malaysia.~~ c. Enhancement Required This enhancement aims to expand provider options by onboarding Zurich Takaful as the new Takaful provider for private and company vehicles, ~~replacing Syarikat Takaful Malaysia~~.

		d. Benefit of implementing this enhancement Implementing this allows users greater insurer choice and access to Zurich Takaful's coverage, enhancing user experience, pricing competitiveness, and platform appeal while ensuring continuous Takaful availability.
b	Targeted Portal(s)	a. Secarang
c	Impacted Key Stakeholder(s) & Impact Description	a. Secarang user Primary reason: The enhancement will be implemented on Secarang.
d	Additional Note(s) - if any	a. Requirements for eAuto web portal and mobile app will be on another SRD. b. Introducing Zurich Takaful Motorcycle Insurance will be on separate SRD. c. For Zurich Takaful motorcycle category, the takaful coverage offered will be Comprehensive and Third Party. d. For Takaful coverages, to ensure the term use is suitable with its coverage type. (eg. sum insured (for insurance) = sum covered (for takaful))

2.2. Specific Requirement

The section offers a detailed breakdown of the high-level requirements, specifying the exact criteria and functionalities that the system must achieve to fulfil the enhancement's overall objective(s).

#	Callout	Field	Existing / New field	Field format	Mandatory (M) / Optional (O)	Update description
1	-	Insurance Quotation	New	Handling	-	**Current Handling:** At present, Syarikat Takaful Malaysia is the only Takaful provider available for motor insurance on both the eAuto and Secarang platforms. The coverage options offered are Comprehensive and Third Party, Fire and Theft (TPFT). As of 28.07.2025, Insurance quotations on Secarang will be displayed based on the following priority sequence: i. Tokio Marine ii. Takaful (Comprehensive) iii. Takaful (TPFT) iv. Lonpac (Hidden from Secarang since 14.07.2025) v. RHB (Hidden from Secarang since 19.05.2025) vi. Allianz (Hidden from Secarang since 19.05.2025) **New Handling:** To onboard Zurich Takaful as the new Takaful provider for private and company vehicles, replacing Syarikat Takaful Malaysia, while

						adhering to the insurer prioritisation sequence in effect at the time of deployment. Insurance Quotation Sequence for 13.05.2026 (Wed) deployment: i. Zurich Takaful (Comprehensive) ii. Zurich Takaful (TPFT) iii. Syarikat Takaful Malaysia (Comprehensive) iv. Syarikat Takaful Malaysia (TPFT) v. Lonpac vi. Tokio Marine Insurance Quotation Sequence (**Motorcycle**) for 13.05.2026 (Wed) deployment i. Zurich Takaful (Comprehensive) ii. Zurich Takaful (TP) iii. Tokio Marine (Comprehensive) iv. Tokio Marine (TPFT)
2	-	Cover Type	New	Handling	-	Cover types offered per vehicle category:

						Car: Comprehensive (V-CO) + Third Party, Fire and Theft (V-FT / TPFT) Motorcycle: Comprehensive (V-CO) + Third Party (V-TP) Cover Type Code Reference: V-CO = MOTOR COMPREHENSIVE V-FT = MOTOR THIRD PARTY FIRE AND THEFT V-TP = MOTOR THIRD PARTY
3	-	TPFT Eligibility	New	Handling	-	TPFT (Third Party, Fire and Theft) will be triggered when any of the following conditions is met: i. Vehicle year is more than 20 years ii. Vehicle year is less than or equal to 20 years, no quotation from all the insurers, and no hak milik (if got approved estm) iii. Vehicle year is less than or equal to 20 years, sum insured less than RM20,000, and no hak milik (if got approved estm)
4	-	Postcode Handling	New	Handling	-	Postcode handling on Secarang insurance quotation flow: Only Lonpac will block Labuan postcode — user is unable to proceed to next step if Lonpac is selected for a Labuan postcode.

						For all other insurers and postcodes (including Sabah, Sarawak, Perhentian, Langkawi), the system shall allow user to proceed to the next step.

						Notes: 1. *For 'Breakage of Glass in Windscreen, Window, or Sunroof' will follow the current behaviour where user should be able to input sum covered amount.* 2. *The sequence of the Optional Coverage will follow existing sequence from other insurance panel.*
2	-	All Drivers	New	Checkbox	-	Behaviour for All Drivers (applies to both eAuto & Secarang): To follow Chubb behaviour: 1. The All Drivers checkbox is pre-ticked by default upon entering the Add-Ons page. 2. A popup message will be displayed to the user. Popup Wording: "Please be advised that if a customer does not wish to include All Drivers in their policy, it is essential to untick the All Drivers."
3	-	All Riders	New	Checkbox	M	Behaviour for All Riders (applies to both eAuto & Secarang):

						To follow Tokio Marine behaviour: 1. The All Riders option is mandatory. 2. User is unable to untick this option.
4	-	Zurich TPFT — Coverage Exclusion	New	Handling	-	Zurich TPFT does not cover the following Optional Coverages: i. All Drivers ii. Breakage of Glass in Windscreen, Window, or Sunroof iii. Inclusion of Special Perils These options shall be hidden or disabled when Zurich TPFT is selected.

2.2.2.1.4 Landing Page (Homepage)

UI Reference (Car Insurance): https://www.figma.com/design/5PZ5vz1UZtfqFK1hdd0wo6/Secarang?node-id=3187-4882&t=DkvgPBzIKFDFr46S-4

UI Reference (Motorcycle Insurance): https://www.figma.com/design/5PZ5vz1UZtfqFK1hdd0wo6/Secarang?node-id=3187-5026&t=DkvgPBzIKFDFr46S-4

Table 2.2.2.1.4.1: SR – Landing Page (Homepage)

#	Callout	Field	Existing / New field	Field format	Mandatory (M) / Optional (O)	Update description
1	-	Landing Page Layout	New	Display	-	To update Secarang landing page layout to support both Car Insurance and Motorcycle Insurance entry points. Refer to UI references above: - Car Insurance landing page layout (Figma) - Motorcycle Insurance landing page layout (Figma) The landing page shall allow users to select the insurance type (Car or Motorcycle) and enter the corresponding vehicle information (Car Plate No. or Motorcycle Plate No., Owner IC No., Postal Code) to proceed to get a quotation.
2	-	Vehicle Number Handling	New	Validation	M	Handling for vehicle number (VN) entry on the Secarang Homepage (Car tab vs Motorcycle tab):

						Both Car VN and Motorcycle VN can proceed through either the Car tab or the Motorcycle tab on the Secarang Homepage — the system shall NOT block users based on VN/tab mismatch. No error message or validation is required at the homepage entry step. User is allowed to proceed to the next step regardless of which tab was selected. *Note: As existing insurer API did not cater the vehicle type.*
