1. DOCUMENT INFORMATION

This section provides essential details about the System Requirements Document, including its purpose, scope, intended audience, and version history. It serves as a foundational reference for all stakeholders involved in the project, ensuring a shared understanding of the document's objectives and structure.

1.1 Purpose

The System Requirements Document outlines the agreed system specifications. Once approved, it becomes the baseline to ensure the system meets business goals. Sign-off is required for development to start, and any changes must follow the System Enhancement Management process.

1.2 Intended Audience

The intended audience for this document includes project stakeholders and any team members involved in defining, implementing, or validating the system requirements.

1.3 Revision History

The section records all modifications to the document until it reaches Version 1.0, at which point it is finalized and established as the baseline for future reference.

Once the document is baselined at Version 1.0, any new changes will be assessed based on their severity. If the changes are significant, an addendum may be created to address them. For less critical updates, a formal change request may be submitted, ensuring that all modifications are properly reviewed, approved, and documented while maintaining alignment with the original requirements and project objectives.

Version No	Date	Revised By	Reason for Revision
0.1	06.07.2026 (Monday)	Batrisyia Hasanah Binti Nursyamsi	Initial Draft
0.2	10.07.2026 (Friday)	Batrisyia Hasanah Binti Nursyamsi	Updated changes mainly in the flow and figma link
1.0	13.07.2026 (Monday)	Batrisyia Hasanah Binti Nursyamsi	To send out for external review
1.1	16.07.2026 (Thursday)	Batrisyia Hasanah Binti Nursyamsi	Updated changes based on discussion with team and Ops
1.2	24.07.2026 (Friday)	Batrisyia Hasanah Binti Nursyamsi	Updated changes based on discussion with team and Ops

Note: Update made to the document is highlighted in blue

1.4. Glossary Of Terms

This section defines key terminology and acronyms used throughout the document, providing clarity and ensuring a common understanding among all audiences of the document.

#	Abbreviation/ Terminology/Terms	Interpretation/Description
1	BO	Back Office
2	UCD	Used Car Dealers
3	SSM	Suruhanjaya Syarikat Malaysia – Companies Commission of Malaysia

4	e-Invoice	Electronic invoice issued in compliance with Malaysian LHDN requirements
5	CSE	Customer Support

1.5 Associated Document(s) – if any

This section records essential information and recommends reviewing the following documents, as they provide valuable support and context for the contents of this document.

#	Item	Location / URL	Rationale for Relevance
1	CCB-618 – EAUTO New Feature - Shopping Cart (To Replace Proforma Invoice)	https://mfservices.atlassian.net/browse/CCB-618	Jira ticket tracking this enhancement
2	EAIN-10960 –  [eAuto-UCD & BackOffice] Shopping Cart - To Create Software Installation Module	https://mfservices.atlassian.net/browse/EAIN-10960	Jira ticket tracking this enhancement
3	Shopping Cart Module Proposal – Slide Deck	Provided by requestor (SHOPPING_CART_PROPOSAL.pptx)	Source of requirement updates incorporated in this version

4	Figma – UCD Portal	https://www.figma.com/design/FzrjkY8WhaEZxyVI2JVzT3/eAuto-UCD?node-id=40614-142062&t=nfvK7iSn2CEWFllr-4	
5	Figma – BO Portal	https://www.figma.com/design/zDOwcO12fHv6vLhyzsC2gK/eAuto--Backoffice?node-id=3174-12&t=Tk6RKyDSTT6N5U5v-1	

2.0 REQUIREMENT

2.1 High-Level Requirement Overview

#	Item	Description
2.1.1	Enhancement overview	This enhancement will introduce a Software Installation service under the new Service Hub module in the UCD portal, allowing UCD to: 1. Book installation appointment (date + fixed time slot) 2. Receive confirmation/reschedule emails for the appointment
2.1.2	Key value(s) expected to derive from this enhancement	i. Streamlines UCD installation requests through a self-service booking flow with automated payment and invoicing. ii. Improves appointment management for CSE with slot capacity control, reschedule handling, and status tracking (Completed/Failed).
2.1.3	Additional Note(s) - if any	

2.2 Key Highlights and Baseline Requirements

The following key highlights and requirements were established during the initial 1–2 sync-up sessions with the requestor. As this form the baseline, any changes requested thereafter may result in adjustments to scope, timeline, or deliverables, for which the requestor will be responsible to review and confirm.

2.2.1 Affected Modules (UCD Portal)

Under Service Hub module

- i. Software Installation Module
- ii. Service Request Listing
- iii. Service Request Details Page

2.2.2 Affected Modules (BO Portal)

Under Proforma Invoice / e-Invoice

- i. Biometric Device Purchase & Software Installation Listing
- ii. Service Request Details Page
- iii. Appointment Calendar Page

2.2.3 Module Permission

Back Office - Biometric Device Purchase & Software Installation Listing

1. Ops
 - Full access
 - Login ID:

- a. kmcheah
- b. jasons
- c. mfareed
- d. nikmuhamad
- e. eautosoyeng
- f. eautokelvin
- g. eautonurul
- h. eautozara
- i. mfizni

2. CSE

- Software Installation Transactions: Full access
- Biometric Device Purchase: View only for biometric-related fields (e.g. Update Shipping Details); CSE may act on the installation appointment bundled in a BDP transaction (reschedule / mark completed / mark failed), but cannot cancel a BDP transaction — cancellation is Ops-only.
- Export: No access
- Login ID:
 - a. eautochinwei
 - b. eautohamal
 - c. eautojrjaya
 - d. eautoxiayuan

e. kokping

f. eautomie

UCD

1. Software Installation – All users
2. Biometric Device Purchase – Only main user

2.2.4 Flow

Step 1: UCD submits installation request via the UCD portal.

Step 2: UCD makes payment via RHB direct debit.

Step 3: UCD selects preferred installation date and fixed time slot.

Step 4: Appointment is auto-confirmed and status is set directly to "PENDING".

Step 5: After installation is completed, back-office user updates the status to "COMPLETED".

2.3 Functionality Specification

2.3.2 Input Field & Validation Specification

2.3.2.1 eAuto UCD Portal > Service Hub > Software Installation Appointment Page

UI Reference: <https://www.figma.com/design/FzrjkY8WhaEZxyVI2JVzT3/eAuto-UCD?node-id=43159-31465&t=lkGaSin3PMk7VGeg-4>

#	Item	Description
1	Step 1: Payment	The Software Installation service page shall be displayed under Service Hub, where UCD selects the number of installations and completes payment before scheduling an appointment. 1. Step Indicator – displays the current step within the 3-step progress wizard (1. Payment, 2. Appointment, 3. Submission); the active step is highlighted in orange, upcoming steps in grey. 2. Service Header – displays the service name ("Software Installation"), a short instruction ("Please select the installation quantity and complete payment before scheduling an appointment."). 3. Number of Installations – mandatory quantity selector (-/+). The default value is 1; the (-) button becomes disabled once the count reaches 1. A numeric value can also be entered directly into the field. UCD sets the number of installations required. No limit on the number of installation. 4. Payment Summary – displays the fee breakdown: i. Software Installation – RM50.00 × quantity. ii. Service Tax 8% – 8% SST on the installation fee. iii. Total Amount Payable (inclusive of Service Tax 8%). 5. Button: i. Back – to return to the Service Hub

		ii. Make Payment — to proceed with payment via RHB direct debit.
2	Payment Popup	Upon clicking "Make Payment", a "Payment" confirmation popup shall be displayed before the payment is submitted: 1. Message: "Sure to proceed with payment?" 2. Button: i. Back/X— to close the popup without submitting; returns to the payment page. ii. Next — to proceed and submit the payment via RHB direct debit. 3. Payment Successful — proceeds to Step 2: Appointment for the UCD to select the preferred installation date and time slot. 4. Payment Failed — a "Payment" popup shall display the failure reason returned by RHB (e.g. "Wang di dalam akaun RHB anda TIDAK MENCIKUPI. 你的RHB银行余额不足。"). The attempt shall be logged under Payment History with Payment Status "Failed" (in red) together with the failure reason. UCD shall not be able to retry payment for this transaction — only a "Back" button shall be available to return to the Service Request Listing Page — and the transaction status shall be set to "Cancelled".
3	Month Selection	The calendar shall display only the current month and the following month. Example: 1. If today is 1 July 2026, the calendar displays July and August 2026. 2. If today is 27 August 2026, the calendar displays August and September 2026.

4	Date & Time Selection (Normal)	UCD shall select both the preferred installation date and a fixed time slot when submitting the request. The appointment shall be open for the current month and the following month. Example: 1. If today is 1 July 2026, UCD can choose starting from 2 July 2026 until 31 August 2026. 2. If today is 27 August 2026, UCD can choose starting from 28 August 2026 until 30 September 2026. Rule: 1. Appointment can only be booked from the next day onwards (no same-day booking via the portal). Note: If UCD still wants slot today, they can choose any available date and time, then call in to CSE to reschedule to today's date and time. 2. Only six (6) slots per day – three (3) per time slot. i. 10am – 12pm ii. 2pm – 4pm 3. The calendar shall display slot availability count per date (e.g. "6 Available", "3 Available", and "Full"). The slot availability count shall reflect bookings made via the UCD Portal only. 4. Public holidays shall be disabled (greyed out) and shown in purple on the calendar; installation appointments cannot be booked on those dates. The list of public holidays will be based on Google Calendar. 5. Call-in via CSE: not bound by the 6/day limit – subject to CSE capacity.
5	Step 2: Appointment	<u>Normal Flow</u> Upon clicking a calendar date, an "Installation Appointment" dialog shall be displayed: 1. Remaining Allocation – displays the number of software installation appointments still to be allocated (e.g. "Remaining software installation appointment to allocate : 3").

		2. Appointment Date – auto-filled from the calendar date clicked (e.g. 16-06-2026). Cannot be edited. 3. Session Allocation – UCD allocates the number of installations per session using the (-/+) quantity selector. Default is 0, max is 3. (-) will be not available when at 0, and (+) not available when at 3: i. Morning Session (10:00am – 12:00pm) – shows the booked count (e.g. "0 of 3 booked"). ii. Afternoon Session (2:00pm – 4:00pm) – shows the booked count (e.g. "0 of 3 booked"). iii. Remove – removes the allocated session from the appointment; the session's booked count is cleared and the freed slot(s) are returned to the remaining allocation. Note: Each session is capped at 3 bookings; once a session reaches 3 of 3, it can no longer be allocated. 4. Button: i. Cancel/X – to close the dialog and return to the appointment page. ii. Confirm – to confirm the allocated slot(s). Note: Once UCD confirms the allocated slot, the system will lock the slot for 15 minutes. <u>Reschedule Flow</u> Upon clicking the Reschedule button, a "Reschedule" popup shall be displayed, listing the current booked appointment(s) for the transaction: 1. Appointment Selection – each row displays the Appointment Date and Time Slot, with a checkbox for selection. 2. UCD shall select at least one (1) appointment to proceed; the maximum selectable is the total number of appointment slots booked for the transaction (e.g. if 5 slots were booked, up to 5 can be selected). 3. Button:
--	--	---

		i. Cancel/X – closes the popup without rescheduling; returns to the Service Request Listing Page. ii. Confirm – proceeds to the reschedule calendar with the selected appointment(s). Upon clicking Confirm, the reschedule calendar shall be displayed: 4. UCD shall select a new date from the calendar to reschedule the selected installation(s). <u>Rules</u> Via UCD Portal (self-service): 1. +2 days minimum rule – today and tomorrow are blocked; earliest selectable date = today +2 days (e.g. on 2/7, earliest = 4/7). 2. Availability check – if the +2 day date is full, the next available date after is offered. 3. Bound by the 6 slots/day capacity. Via CSE (call-in): 1. No date limitation and no slot capacity limit – based on CSE capacity. 2. CSE performs the reschedule via the BO Appointment Calendar.
6	Slot Selected	<u>Normal Flow</u> Once UCD has allocated the session(s) in the “Installation Appointment” dialog, the calendar shall reflect the booking: 1. Selected: i. Each date with an allocation shall display a green “Selected (n)” badge above the slot availability count, where n is the number of installations allocated to that date (e.g. “Selected (2)”, “Selected (1)”). ii. The slot availability count per date shall update accordingly (e.g. “1 Available”, “3 Available, “Full”) iii. A booking progress counter shall be displayed at the bottom (e.g. “Booked 3 of 3 appointment(s).”), reflecting the total allocated against the remaining allocation.

		iv. Confirm Appointment button – enabled once all appointments have been allocated (e.g. Booked 3 of 3), to proceed with booking. Note: Under Confirm Appointment, the message shall be displayed – “Your appointment for software installation is valid for 2 months from your purchase date.” (UI ref: https://www.figma.com/design/FzrjkY8WhaEZxyVI2JVzT3/eAuto-UCD?node-id=43207-103105&t=R5D1XSP0lekirbey-4) 2. Not Available: i. A popup message shall appear: “Slot Unavailable. Sorry, some selected time slot are booked. Please try again with another time slot or dates.” ii. UCD shall click the “OK” button to return to the calendar and choose from the available slots. <u>Reschedule Flow</u> 1. Once selected the new date, an allocation shall display a green “Selected (n)” badge above the slot availability count, where n is the number of installations allocated to that date (e.g. “Selected (2)”, “Selected (1)”). 2. UCD to proceed to Confirm Appointment. 3. A popup message shall appear: “Reschedule Are you sure you want to reschedule? By proceeding you will lost your current appointment.” 4. Button: i. Yes: To proceed with the date ii. No: To choose back booking date Note: When only some appointment(s) within a transaction are rescheduled, the reschedule summary page shall display only the rescheduled appointment(s) – not all appointments in the transaction
--	--	---

		(e.g. if a transaction has 4 appointments and 2 are rescheduled, only those 2 are shown). iii. Note: • Same-day reschedule is allowed to proceed. If UCD selects today's date when rescheduling, the system shall allow the reschedule; however, the affected installation record shall be set to Installation Status = "Pending" with the system remark "UCD rescheduled on the same day." • Remarks display location – UCD side: Service Request Details Page → Appointment Details; BO side: Remarks column (listing) and Software Installation Details Page → Reason of Failed.								
7	Appointment Confirmation Email	Sender: support@eauto.my Recipient: UCD user who proceeded with the transaction Trigger: Upon UCD successfully booking installation appointment – Payment = Successful Template: Subject: eAuto: Your Software Installation Appointment is Confirmed – [UCD Company Name] Body: Dear [UCD Company Name], Your Software Installation appointment has been confirmed. Your appointment details are as follows: <table><tr><th>#</th><th>Date</th><th>Time</th><th>Paid Amount</th></tr><tr><td></td><td></td><td></td><td></td></tr></table>	#	Date	Time	Paid Amount				
#	Date	Time	Paid Amount							

--	--	--	--

Please ensure the following before the appointment:

- Your laptop/PC is available and ready on the appointment date
- The person in charge (PIC) is present during the installation

If you need to reschedule, please go to the UCD Portal to choose a new date, or contact our Customer Service team at 03-27798899 if you urgently need an earlier arrangement.

Thank you.

This is an automated email from eAuto. Please do not reply to this email.

Example:

Subject: eAuto: Your Software Installation Appointment is Confirmed – BH AUTO SDN BHD

Body:

Dear BH AUTO SDN BHD,

Your Software Installation appointment has been confirmed. Your appointment details are as follows:

#	Date	Time	Paid Amount
1	10.07.2026	10.00am – 12.00pm	RM 54.00
2	11.08.2026	2.00pm – 4.00pm	RM 54.00

Please ensure the following before the appointment:

- Your laptop/PC is available and ready on the appointment date

		- The person in charge (PIC) is present during the installation If you need to reschedule, please go to the UCD Portal to choose a new date, or contact our Customer Service team at 03-27798899 if you urgently need an earlier arrangement. Thank you. This is an automated email from eAuto. Please do not reply to this email.
8	Reschedule Email	Trigger: Upon appointment reschedule via UCD Portal OR by CSE via the BO Appointment Calendar. Template: Subject: eAuto: Your Software Installation Appointment has been Rescheduled – [UCD Company Name] Body: same template as the Appointment Confirmation Email, with updated appointment details. Note: The reschedule email shall list only the rescheduled appointment(s), not all appointments in the transaction. Example: Subject: eAuto: Your Software Installation Appointment has been Rescheduled – BH AUTO SDN BHD Body: same template as the Appointment Confirmation Email, with updated appointment details.
D9	Step 3: Submission	Upon successful payment, the "Request Submitted" confirmation page shall be displayed:

		1. Message: "We have received your request and you will receive an email for confirmation." 2. Request Summary — displayed as a table listing named a. "Software Installation Appoinment Details" each booked appointment, with the following columns: i. # — running number ii. Appointment Date — DD-MM-YYYY (e.g. 16-06-2026). iii. Time Slot — the appointment time slot (e.g. 10:00am – 12:00pm). iv. Paid Amount — the amount paid for the installation(s) b. "Payment Details" with the following rows: i. Software Installation — total amount paid for Software Installation(s) ii. Total paid — total amount deducted paid from RHB direct debit iii. Done — to return to Service Request Listing page.
--	--	--

2.3.2.2 eAuto UCD Portal > Service Hub > Service Request Listing

UI Reference: <https://www.figma.com/design/FzrjkY8WhaEZxyVI2JVzT3/eAuto-UCD?node-id=40865-7280&t=VqBaOMY6O9f27UHf-4>

#	Item	Description
1	Filter	A "Search & Filter" panel shall be displayed with the following criteria: 1. Reference No – free-text input. Similar as STMS Transaction No. behavior. 2. Service Type – dropdown selection; default "All". a. All b. Software Installation c. Biometric Device Purchase 3. Date Requested – date range picker: Date (From) and Date (To). Min 1 day, Max 1 month 4. Status (refers to Transaction Status, not Installation Status) – dropdown selection; default "All". a. All b. - c. Pending d. Completed e. Cancelled f. Expired Note: Status filter reflects Transaction Status (not Installation Status). "Failed" has been removed as it is no longer applicable (redundant). 5. Payment Date – date range picker: Date (From) and Date (To). Min 1 day, Max 1 month 6. Button: i. Search Now: To filter the listing based on the criteria entered. Similar as STMS Search Now behavior.

		ii. Reset: To clear all filter criteria back to default. Similar as STMS Reset behavior. Note: Text Field Validation — applies to ALL text fields in UCD and BO, including remarks: Accept: (1) all alphabetical characters (e.g. EAJNT); (2) all numerical characters (e.g. 1234); (3) all special characters (e.g. !@#\$%^); (4) all spacing applied (e.g. "spacing characters testing "). Block: (1) all Chinese characters (e.g. 测试); (2) all other non-English characters (e.g. Korean, Japanese). Note: Quantity Field Validation — applies to all quantity/number-selector fields (e.g. Session Allocation): accept integer values only; no additional maximum applies beyond the per-session appointment allocation caps (3 per session, 6 per day).
2	Listing Columns	The Service Request Listing table shall display the following columns: 1. # — running number. 2. Reference No — service request reference number. Format: • SR{Year}{Month}{6_digits_running_no} • e.g. SR67000001 3. Service Type — type of service requested (e.g. Software Installation). 4. Date Requested — request date and time, DD-MM-YYYY HH:MM (e.g. 01-06-2026 10:25). 5. Payment — "OK" in green upon successful payment, "-" if no payment was made, "Failed" in red upon unsuccessful payment. 6. Tx Status — "Pending" in blue, "Completed" in green, "Expired", "Cancelled" and "-" in black. Tx Status Logic: i. "-" — as long as Payment is not yet "OK" or "Failed" (payment not completed).

		ii. Pending — remains Pending as long as at least one appointment is not in a final status (Completed or Cancelled); a Failed appointment is treated as non-final since it proceeds to the reappointment flow. iii. Cancelled — becomes Cancelled when all appointments are Cancelled, or when Payment = Failed (refer to Step 1: Payment – Payment Failed). iv. Completed — becomes Completed only when all appointments are in a final status (Completed or Cancelled) and at least one appointment is Completed. v. Expired — the only scenario that currently results in an Expired appointment status is when UCD has not claimed any installation (whether free or paid) within 2 months of purchase. For example, if UCD purchases on 6 July but does not book an installation slot, they may book or reschedule from 6 July until 6 September; the transaction shall be set to Expired on 7 September if still unclaimed. This applies to both Software Installation and Biometric Device Purchase transactions (whether the underlying installation is free or paid), and is enforced by a daily scheduled job (cron) that flips eligible installation and transaction records to "Expired" once the 2-month window lapses. 7. e-Invoice Status — "OK" in green, "Failed" in red; "-" if not applicable. 8. Remarks — system remarks where applicable, e.g. e-Invoice failure ("TIN verification failed. Kindly provide correct TIN information to eAuto customer service."), same-day reschedule ("UCD rescheduled on the same day.") or failed payment ("IF - Wang di dalam akaun RHB anda TIDAK MENCUKUPI. 你的RHB银行余额不足."). 9. Action — refer to Action Column below. Note: The listing shall be sorted by the latest Date Requested first.
3	Action Column	The Action column shall display: 1. View — to open the Service Request Details Page of the selected request.

		2. Reschedule — displayed only for Software Installation requests with Tx Status = "PENDING", to reschedule the appointment (refer to 2.3.2.1 #3). 3. Resubmit — allows the user to resubmit the booking if the page was accidentally closed during the process. Shown only on a paid-but-unscheduled row (Payment = OK, no appointment booked yet) and resumes the scheduling step from Step 2: Appointment; not shown on a failed-payment row.
4	Records per page	The listing shall display a maximum of 20 records per page. If no records are found, the listing shall display "No record found. Try again."

2.3.2.3 eAuto UCD Portal > Service Hub > Service Request Listing > Service Request Details Page

UI Reference: <https://www.figma.com/design/FzrjkY8WhaEZxyVI2JVzT3/eAuto-UCD?node-id=40865-6741&t=VqBaOMY6O9f27UHf-4>

#	Item	Description
1	Page Header	The page header shall display: 1. « Back button – to return to the Service Request Listing. 2. Reference No of the request. Format: • SR{Year}{Month}{6_digits_running_no} • e.g. SR67000001 3. Tx Status beside the Reference No – "Pending" in blue, "Completed" in green, "Expired" and "Cancelled" in Black.
2	Service Request Details	The Service Request Details panel shall display: 1. Service Type – type of service requested (e.g. Software Installation). 2. Date Requested – DD-MM-YYYY HH:MMam/pm (e.g. 01-06-2026 10:50am). 3. e-Invoice Submission Date – e.g. 01-06-2026 11:00am. 4. LHDN Response Status – "OK" in green / "Failed" in red, "-" if not applicable. 5. e-Invoice Validation Date – e.g. 01-06-2026 11:00am. 6. Button: i. Invoice: To view/download the invoice. ii. e-Invoice: To view/download the validated e-Invoice.
3	Appointment Details	For Software Installation requests, an Appointment Details section shall display: 1. Number of Installations – total number of request(s) (e.g. 3 request(s)). 2. Appointment – total number of booked appointments (e.g. 3 booked). 3. # – running number. 4. Appointment Date – DD-MM-YYYY (e.g. 16-06-2026).

		5. Time Slot – the appointment time slot (e.g. 10:00am – 12:00pm). 6. Status – "Pending" in blue, "Completed" in green, "Failed" in red, "Cancelled", "Expired" and "-" in black. 7. Status Banner – a banner shall be displayed at the top of the page reflecting the overall Tx Status of the request (e.g. "Installation request completed." in green when Tx Status = Completed).
4	Payment Details	The Payment Details section shall list all payment attempts for the request in chronological order: 1. Format: [Date & time] - [Payment channel (Transaction Ref No)] - [Status]. 2. Status – "OK" in green for successful payment; "Failed" in red, with the failure remarks shown in brackets. 3. Example: i. 01-06-2026 10:59am - RHB (260601000007) - Failed (IF - Wang di dalam akaun RHB anda TIDAK MENCUKUPI. 你的RHB银行余额不足.) ii. 01-06-2026 11:15am - RHB (260601000008) - OK Note: Failed payment attempts shall remain displayed for reference.
5	Fee Summary	A fee summary shall be displayed listing the fee for each service item under the request. Example: 1. Software Installation: RM 54.00

2.3.2.4 eAuto UCD/ Back Office Portal > Invoice & e-Invoice Template

#	Item	Description
1	Invoice Template	The Invoice and e-Invoice templates shall remain unchanged from the existing format (refer STMS Invoice / e-Invoice as the reference template). The Description field under the line item table shall be left blank at the point of generation. The description content will be provided by Finance at a later stage and will be forwarded once received, for update into the respective templates. File Format: Software_Installation_Invoice.pdf Template:

INVOICE

2.3.2.5 eAuto Back Office Portal > Biometric Device Purchase & Software Installation Listing

UI Reference: <https://www.figma.com/design/zDOWc012fHv6vLhyzsC2gK/eAuto---Backoffice?node-id=3562-10224&t=CwuEtmP02S2aFXkJ-4>

#	Item	Description
1	Filter	A "Search & Filter" panel shall be displayed with the following criteria: 1. Reference No. — free-text input. Similar as STMS Transaction No. behavior. 2. Company Name — free-text input. Similar as STMS Company Name behavior. 3. Date Requested From / Date Requested To — mandatory date range picker (defaults to the current month, e.g. 01/04/2026 – 30/04/2026). Min 1 day, Max 1 month. 4. Company ROC — free-text input. Similar as STMS Company ROC behavior. 5. Delivery Date From / Delivery Date To — optional date range picker. (belongs to Biometric Device Purchase — not applicable to Software Installation) 6. Delivery Status — dropdown selection; default "All". (belongs to Biometric Device Purchase — not applicable to Software Installation) 7. Appointment Date From / Appointment Date To — optional date range picker. Min 1 day, Max 1 month. 8. Installation Status — dropdown selection; default "All". a. All b. - c. Pending d. Completed e. Failed f. Cancelled g. Expired 9. Time Slot — dropdown selection; default "All". a. All b. - c. 10am – 12pm d. 2pm – 4pm 10. Payment Status — dropdown selection; default "All".

		a. All b. OK c. Failed 11. LHDN Response Status – dropdown selection; default "All". a. All b. OK c. Failed d. - 12. Button: i. Search – to filter the listing based on the criteria entered. Similar as STMS Search Now behavior. ii. Export – to export the filtered listing. Explain in 2.3.2.4 #3 iii. Reset – to clear all filter criteria back to default. Similar as STMS Reset behavior. iv. Appointment Calendar – to navigate to the Appointment Calendar page. Note: Text Field Validation – applies to ALL text fields in UCD and BO, including remarks: Accept: (1) all alphabetical characters (e.g. EAJNT); (2) all numerical characters (e.g. 1234); (3) all special characters (e.g. !@\$%^); (4) all spacing applied (e.g. " spacing characters testing "). Block: (1) all Chinese characters (e.g. 测试); (2) all other non-English characters (e.g. Korean, Japanese).
2	Listing Columns	The Software Installation Listing table shall display the following columns: 1. # – running number. 2. Reference No. – service request reference number. Format: - SR{Year}{Month}{6_digits_running_no} - e.g. SR67000001 3. Date Requested – request date and time, DD-MM-YYYY HH:MM (e.g. 01-06-2026 10:50). 4. Company Name – UCD company name. 5. Company ROC – UCD company registration number.

		6. Device – number of biometric device(s) (e.g. 1). 7. Delivery Date – DD-MM-YYYY (e.g. 02-06-2026). (belongs to Biometric Device Purchase – not applicable to Software Installation) 8. Installation Request – number of installation units requested (e.g. 1). 9. Appointment Date – DD-MM-YYYY (e.g. 02-06-2026). 10. Time Slot – the selected appointment time slot (e.g. 10am – 12pm). 11. Payment Status – "OK" in green upon successful payment, "Failed" in red upon unsuccessful payment and "-" if no payment made. 12. LHDN Response Status – "OK" in green, "Failed" in red and "-" if not applicable. 13. Delivery Status – "New"/"Arranged"/"Delivered". (belongs to Biometric Device Purchase – not applicable to Software Installation) 14. Installation Status – "New" in blue, "Pending" in blue, "Completed" in green, "Failed" in red, "Cancelled", "Expired" and "-" in black. 15. Date Completed – DD-MM-YYYY (e.g. 02-06-2026); "-" if not yet completed. 16. Remarks – system remarks where applicable, e.g. installation reason (e.g. Reappointment) 17. Special Remarks – "Yes"/"No" indicator in blue. 18. Action: i. "View" link to open the Software Installation Details Page of the selected request. ii. "Cancel" link – displayed while Installation Status is "-", "New", "Pending" or "Failed" (BO-marked); not shown once Installation Status is "Completed", "Cancelled" or "Expired" (terminal states). Clicking Cancel displays a "Sure to cancel?" popup to double-confirm before the request is officially cancelled. Note: Cancellation eligibility by scenario (Payment = OK): 1. BDP + additional installation (Installation Status = Pending): Ops can cancel based on the installation appointment slot. 2. BDP + booked free installation (Installation Status = Pending): Ops can cancel based on the installation appointment slot. 3. BDP + no software installation booking (Installation Status = -):
--	--	--

		Ops can cancel the transaction; cancelling this bare "-" (no-appointment) row sets Tx Status = Cancelled directly (Installation Status = Cancelled) 4. Software Installation (Installation Status = Pending): Ops and CSE Team can cancel based on the installation appointment slot. 5. Software Installation (Installation Status = -): Ops and CSE Team can cancel; cancelling this bare "-" (no-appointment) row sets Tx Status = Cancelled directly (Installation Status = Cancelled) 6. Cancellation authority: Ops can cancel both Software Installation and BDP records; CSE can cancel Software Installation only. UCD cannot self-cancel a Service Request from the UCD Portal. 7. Tx roll-up: the only terminal (final) Tx Status values are Completed, Cancelled and Expired – once reached, no further status change occurs. Note: The listing shall be sorted by the latest Date Requested first.
3	Export	Clicking "Export" shall export the listing to an Excel (.xlsx) file: 1. All records in the current listing shall be exported. 2. File name format: Biometric_Device_Installation_List_YYYYMMDD.xlsx, where YYYYMMDD is the export date (e.g. Biometric_Device_Installation_List_20260602.xlsx).
4	Records per page	The listing shall display a maximum of 50 records per page. If no records are found, the listing shall display "No records found."

2.3.2.6 eAuto Back Office Portal > Software Installation Details Page

UI Reference: <https://www.figma.com/design/zDOWc012fHv6vLhyzsC2gK/eAuto---Backoffice?node-id=3562-9060&t=CwuEtmP02S2aFXkJ-4>

#	Item	Description
1	Page Header	The page header shall display: 1. « Back button – to return to the Software Installation Listing. 2. Service Request No. – displayed as "Service Request #" followed by the reference number (e.g. Service Request #SR67000001). 3. Button: i. Installation Failed » – refer to Mark Failed below. ii. Installation Completed » – refer to Mark Completed below.
2	Request Details	The Request Details panel shall display: 1. Date Requested – DD-MM-YYYY HH:MM am/pm (e.g. 01-06-2026 10:50am). 2. Company Name – UCD company name. 3. Company ROC – UCD company registration number. 4. e-Invoice Submission Date – e.g. 01-06-2026 11:55am. 5. LHDN Response Status – "OK" in green, "Failed" in red, "-" if not applicable. 6. e-Invoice Validation Date – e.g. 01-06-2026 11:55am. 7. Button: i. Invoice – to view/download the invoice. ii. e-Invoice – to view/download the validated e-Invoice.
3	Appointment Details	The Appointment Details panel shall display: 1. Installation Service – number of request(s) (e.g. 1 request(s)). 2. Appointment Status – "Pending" in blue, "Completed" in green, "Failed" in red, "Cancelled", "Expired" and "-" in black. 3. Appointment Date – DD-MM-YYYY (e.g. 02-06-2026). 4. Time Slot – the appointment time slot (e.g. 10:00am - 12:00pm). 5. Date Completed – the date and time the installation was marked completed; DD-MM-YYYY HH:MM am/pm (e.g. 02-06-2026 03:54pm). Displayed once the Appointment Status is "Completed".

		6. Reason of Failed – refer to the reason why installation failed (e.g. Reappointment) Persists even after a subsequent reappointment returns the Appointment Status to "Pending"; on repeat failure, the stored reason is overwritten with the latest selection (no per-failure history is retained).
4	Payment Details	The Payment Details section shall list all payment attempts for the request in chronological order: 1. Format: [Date & time] - [Payment channel (Transaction Ref No)] - [Status]. 2. Status – "OK" in green for successful payment; "Failed" in red, with the failure remarks shown in brackets. 3. Example: i. 01-06-2026 11:54am - RHB (260601000007) - Failed (IF - Wang di dalam akaun RHB anda TIDAK MENCUKUPI. 你的RHB银行余额不足.) ii. 01-06-2026 11:55am - RHB (260601000008) - OK 4. Biometric Devices – total device fee (e.g. RM 850.00). (belongs to Biometric Device Purchase – not applicable to Software Installation) 5. Software Installation Fee – total fee inclusive of 8% SST (e.g. RM 54.00).
5	Special Remark	A "Special Remark" free-text box shall be displayed below Payment Details, together with an "Update Special Remark" button to save the entered remark. Similar to STMS "Update Special Remark".
6	Mark Completed	Clicking "Installation Completed »" shall display a confirmation popup: 1. Message: "Are you sure want to mark the installation appointment as completed?" 2. Button: i. No – to close the popup without changes. ii. Yes – to update the Appointment Status to "Completed". 3. Once updated, the Appointment Status shall be set to "Completed", and the UCD Portal's Service Request Details Page shall display a green banner – "Installation request completed." – at the top of the page.
7	Mark Failed	Clicking "Installation Failed »" shall display an "Installation Failed" popup: 1. Message: "Please select the reason causing the installation failed:" 2. Reason – radio selection: Reappointment / Laptop/PC Issues / Other.

		i. If "Other" is selected, a free-text box shall display for the user to key in the reason. Limit character 100. 3. Button: i. No – to close the popup without changes. ii. Yes – to update the Appointment Status to "Failed", capturing the selected reason. 4. Once updated, the Appointment Status shall be set to "Failed", the selected reason shall be captured under "Reason of Failed", and the UCD Portal's Service Request Details Page shall display a red banner – "Installation request failed." – at the top of the page. 5. Persistence: The Reason of Failed (Reappointment / Laptop/PC Issues / Other) shall remain displayed once set, including after a subsequent reappointment returns the Appointment Status to "Pending". On repeat failure, the stored reason shall be overwritten with the latest selection – no history of prior failure reasons is retained.
8	Concurrency Handling (Optimistic Lock)	When a second Ops user attempts to update the same record while another update by a different user is in progress, the system shall block the action with an "Error" popup: 1. Title: "Error". 2. Message (context-dependent): i. Update Shipping Details: "Unable to proceed. This record was just updated by another user." ii. Installation Status: "Unable to proceed. This Service Request has been completed, failed, expired or cancelled." 3. Button: OK – closes the popup and refreshes the page.

2.3.2.7 eAuto Back Office Portal > Appointment Calendar

UI Reference: <https://www.figma.com/design/zDOWc012fHv6vLhyzsC2gK/eAuto---Backoffice?node-id=3514-66085&t=CwuEtmP02S2aFXkJ-4>

#	Item	Description
1	Appointment Month Filter	The Appointment Calendar page shall display: 1. « Back button – to return to the Software Installation Listing. 2. Appointment Month – dropdown selection of month/year (e.g. Jun 2026). 3. Search button – to display the calendar for the selected month. 4. Add Appointment button – to open the "Add Appointment" dialog to create a new installation appointment (refer to Add Appointment Dialog below).
2	Appointment Calendar View	Calendar view by date, split into two time slots: 10:00am–12:00pm and 2:00pm–4:00pm. 1. Each time slot lists the confirmed appointments as a running numbered list of Company Names (e.g. "1. YENG AUTOMOBILE SDN BHD"). 2. A capacity counter per date and slot is displayed below the listed appointments (e.g. "Morning - 3", "Afternoon - 3 (Full)"), with the "(Full)" indicator shown in red once the slot reaches capacity. 3. The 3-per-slot (6/day) capacity applies to UCD Portal bookings only; the indicator is informational for CSE. 4. Each listed appointment has a Reschedule link (refer to Reschedule Appointment Dialog below). 5. Dates with no appointments display "-" for both time slots.
3	Reschedule Appointment Dialog	Upon clicking "Reschedule" against an appointment, a "Reschedule Appointment" dialog shall display: 1. Company Name – read-only, auto-filled from the selected appointment. 2. Installation Status – read-only; "Pending" and "Failed" in blue. 3. Installation Service Reference No. – read-only, auto-filled (e.g. SR67000001). 4. Current Appointment Date – read-only, showing the existing date and time slot (e.g. 04-06-2026 2:00pm – 4:00pm).

		5. New Appointment Date – mandatory date input. 6. Time Slot – mandatory radio selection: 10:00am – 12:00pm / 2:00pm – 4:00pm. 7. Button: i. Cancel – to close the dialog without changes. ii. Confirm – to submit the reschedule.
4	Add Appointment Dialog	Clicking "Add Appointment" shall open an "Add Appointment" dialog with the instruction: "Please enter the company name to add installation appointment." 1. Company Name – mandatory free-text input, with a "Search" button to look up the company. Similar to Proforma Invoice Company Name Search. 2. Reference No. – mandatory free-text input with a "Search" button. 3. Appointment Date – mandatory dropdown selection of the available appointment date. 4. Time Slot – mandatory radio selection: 10:00am – 12:00pm / 2:00pm – 4:00pm. 5. Button: i. Cancel – to close the dialog without changes. ii. Confirm – to submit and create the installation appointment.
