1.0 DOCUMENT INFORMATION

1.1 Purpose

The System Requirements Document outlines the agreed system specifications. Once approved, it becomes the baseline to ensure the system meets business goals. Sign-off is required for development to start, and any changes must follow the System Enhancement Management process.

1.2 Intended Audience

The intended audience for this document includes project stakeholders and any team members involved in defining, implementing, or validating the system requirements.

1.3 Revision History

This section records all modifications to the document until it reaches Version 1.0, at which point it is finalized and established as the baseline for future reference. Once baselined, any new changes will be assessed based on their severity — significant changes may result in an addendum, while less critical updates may be handled through a formal change request.

Note: Update made to the document is highlighted in yellow

1.4 Glossary of Terms

#	Abbreviation / Term	Interpretation / Description

1.5 Associated Document(s)

#	Item	Location / URL	Rationale for Relevance
1	EAIN-12107 — [Secarang-Fiuu] Enhance Payment Gateway to Enable ShopeePay and GrabPay	https://mfservices.atlassian.net/browse/EAIN-12107	Source enhancement request for this document
2	ESI-323 — To enhance on payment gateway for Secarang Fiuu	https://mfservices.atlassian.net/browse/ESI-323	Parent enhancement request raised by the requestor
3	CCB-858 — ESI Secarang Fiuu - To enable for SPay Later and GrabPay Later	https://mfservices.atlassian.net/browse/CCB-858	Change Control Board ticket for this enhancement

2.0 REQUIREMENT

2.1 High-Level Requirement Overview

#	Item	Description
2.1.1	Enhancement Overview	The existing Secarang Fiuu payment gateway shall be enhanced to enable 2 additional payment channels, namely ShopeePay and GrabPay. Each channel offers a Full Amount option and a Buy Now Pay Later (BNPL) monthly installment option.
2.1.2	Key Value(s) Expected	Customers are given more payment channels to choose from when paying for their insurance in Secarang, including the option to pay by monthly installment.
2.1.3	Additional Note(s)	SPayLater under ShopeePay carries an activation date of 26 May 2026 and PayLater by Grab under GrabPay carries an activation date of 21 June 2026. Both channels shall be released together.

2.1.1 Assumptions

#	Assumption
1	Fiuu has completed the merchant-side activation for both ShopeePay and GrabPay before deployment.
2	The existing payment channels in Secarang remain unchanged.
3	The monthly installment tenure and terms under SPayLater and PayLater by Grab are managed by Shopee and Grab respectively, and are not verified in Secarang.

2.2 Key Highlights and Baseline Requirements

The following key highlights and requirements were established during the initial sync-up sessions with the requestor. As this forms the baseline, any changes requested thereafter may result in adjustments to scope, timeline, or deliverables, for which the requestor will be responsible to review and confirm.

2.2.1 Background

#	Affected Item	Description
1	Project	Secarang
2	Portal	Secarang
3	Module	Fiuu Payment
4	Request	Enable ShopeePay and GrabPay as additional payment channels in the Secarang Fiuu payment gateway. Each channel offers a Full Amount option and a monthly installment option.
5	Additional Note	To allow more payment options in Secarang.

2.2.2 Existing Issue & Expected Behaviour

#	Item	Description
1	Existing Issue / Behaviour	The Secarang payment page offers 2 payment channels only, namely Credit or Debit Card and FPX Online banking.
2	Expected New Handling / Behaviour	ShopeePay a. Full Amount b. SPayLater (monthly installment) GrabPay a. Full Amount b. PayLater by Grab (monthly installment)

2.2.3 Affected Pages

#	Affected Pages	Description
1	Secarang — Payment	The payment channel selection page where the customer chooses how to pay.
2	Fiuu Payment Gateway	The gateway page the customer is redirected to after selecting a payment channel.
3	CIBO — Payment Management	The Payment Channels filter used to filter payment records.
4	CIBO — Transaction Management	The Transaction Details view within the Transaction Management Listing.
5	CIBO — Payment Report	The Payment Report and its exported file.

2.2.4 Payment Channel Selection

#	Requirement ID	Item	Description	Acceptance Criteria
1	EAIN-12107-REQ-001	New Payment Channel — ShopeePay	The existing payment channel handling shall remain unchanged. Upon reaching the payment page, the customer shall be able to select ShopeePay as a payment channel. Upon selecting ShopeePay, the customer shall be able to pay by: a. Full Amount b. SPayLater (monthly installment)	ShopeePay is displayed as a selectable payment channel on the payment page. Selecting ShopeePay redirects the customer to the Fiuu payment gateway for ShopeePay. Full Amount and SPayLater are both available under ShopeePay.

#	Requirement ID	Item	Description	Acceptance Criteria
2	EAIN-12107-REQ-002	New Payment Channel — GrabPay	The existing payment channel handling shall remain unchanged. Upon reaching the payment page, the customer shall be able to select GrabPay as a payment channel. Upon selecting GrabPay, the customer shall be able to pay by: a. Full Amount b. PayLater by Grab (monthly installment)	GrabPay is displayed as a selectable payment channel on the payment page. Selecting GrabPay redirects the customer to the Fiuu payment gateway for GrabPay. Full Amount and PayLater by Grab are both available under GrabPay.
3	EAIN-12107-REQ-003	Existing Payment Channels	The existing Credit or Debit Card and FPX Online banking channels shall remain unchanged.	Credit or Debit Card and FPX Online banking continue to work as they do today after deployment.
4	EAIN-12107-REQ-004	Transaction Amount Limit	No minimum or maximum transaction amount shall be applied to ShopeePay or GrabPay.	A payment of any amount can be completed through ShopeePay and GrabPay without an amount-based restriction from Secarang.

#	Requirement ID	Item	Description	Acceptance Criteria
5	EAIN-12107-REQ-005	Activation	ShopeePay and GrabPay shall be released together in a single deployment.	ShopeePay and GrabPay appear on the payment page on the same date, and neither is released ahead of the other.

2.2.5 Payment Outcome Handling

#	Requirement ID	Item	Description	Acceptance Criteria
6	EAIN-12107-REQ-006	Successful Payment	The existing successful payment handling shall remain unchanged. Upon a successful payment through ShopeePay or GrabPay, the system shall follow the same handling as the existing payment channels.	A successful payment through either new channel produces the same confirmation and policy issuance outcome as an existing channel.
7	EAIN-12107-REQ-007	Failed Payment	The existing failed payment handling shall remain unchanged. Upon a failed payment through ShopeePay or GrabPay, the system shall follow the same handling as the existing payment channels.	A failed payment through either new channel returns the customer to the payment page and allows another payment channel to be selected.

#	Requirement ID	Item	Description	Acceptance Criteria
8	EAIN-12107-REQ-008	Cancelled Payment	The existing cancelled payment handling shall remain unchanged. Upon the customer cancelling at the ShopeePay or GrabPay page, the system shall follow the same handling as the existing payment channels.	Cancelling at either new channel returns the customer to the payment page with the quotation retained.

2.2.6 Payment Flow

#	Requirement ID	Item	Description	Acceptance Criteria
9	EAIN-12107-REQ-009	ShopeePay Payment Flow	The existing payment redirection handling shall remain unchanged. Upon selecting ShopeePay, the customer shall complete the payment inside the Shopee app.	The customer is directed to the Shopee app and completes the payment there.
10	EAIN-12107-REQ-010	GrabPay Payment Flow	The existing payment redirection handling shall remain unchanged. Upon selecting GrabPay, the customer shall: - Approve the browser login from the Grab app - Return to the browser to complete the payment	The customer approves the login request in the Grab app, returns to the browser, and completes the payment there.

2.2.7 Payment Channel Filter

#	Requirement ID	Item	Description	Acceptance Criteria
11	EAIN-12107-REQ-011	New Filter Option — Fiuu - eWallet	The existing Payment Channels filter shall remain unchanged. Upon opening CIBO > Payment Management, the user shall be able to select Fiuu - eWallet in the Payment Channels filter.	Fiuu - eWallet is displayed as an option in the Payment Channels filter.
12	EAIN-12107-REQ-012	Default Sub-Option Selection	Upon ticking Fiuu - eWallet, the system shall tick the following sub-options by default: a. GrabPay b. GrabPay - PayLater by Grab c. ShopeePay d. ShopeePay - SPayLater	Ticking Fiuu - eWallet ticks all 4 sub-options.
13	EAIN-12107-REQ-013	Unticking a Sub-Option	Upon ticking Fiuu - eWallet, the user shall be able to untick any individual sub-option.	Clicking a ticked sub-option unticks that sub-option only, and the remaining sub-options stay ticked.

2.2.8 Eligibility of Testing in Sandbox Environment of Fiuu

#	Payment Option	Eligibility to Test	Remark
1	ShopeePay — Full Amount	Not able to test	Not available for testing in the sandbox environment of Fiuu
2	ShopeePay — SPayLater	Not able to test	Not available for testing in the sandbox environment of Fiuu
3	GrabPay — Full Amount	Able to test	The only option QA is able to test in the sandbox environment of Fiuu
4	GrabPay — PayLater by Grab	Not able to test	Not available for testing in the sandbox environment of Fiuu

2.2.9 Payment Reference ID

#	Requirement ID	Item	Description	Acceptance Criteria
14	EAIN-12107-REQ-014	Payment Reference ID for e-Wallet Transactions	The existing Payment Reference ID handling shall remain unchanged. Upon a payment made through an e-Wallet channel, the system shall use EW as the identifier in the Payment Reference ID. Example: LON20260908SEW0002	The Payment Reference ID of an e-Wallet transaction carries the EW identifier. Example: LON20260908SEW0002

#	Requirement ID	Item	Description	Acceptance Criteria
15	EAIN-12107-REQ-015	Display of Payment Reference ID	The existing Payment Reference ID display shall remain unchanged. Upon generating the Payment Reference ID, the system shall display the updated Payment Reference ID in: a. Payment Management Listing b. Exported Payment Management Listing file c. Transaction Details in the Transaction Management Listing d. Payment Report e. Exported Payment Report file	The updated Payment Reference ID is displayed in the Payment Management Listing. The updated Payment Reference ID is displayed in the exported Payment Management Listing file. The updated Payment Reference ID is displayed in the Transaction Details of the Transaction Management Listing. The updated Payment Reference ID is displayed in the Payment Report. The updated Payment Reference ID is displayed in the exported Payment Report file.

Appendix — Requirement Change Log

#	SRD Version	Requirement ID	Status	Reason
1	0.1	EAIN-12107-REQ-001	Added	New SPAY Later payment channel
2	0.1	EAIN-12107-REQ-002	Added	New PayLater by Grab payment channel
3	0.1	EAIN-12107-REQ-003	Added	Existing payment channels unchanged
4	0.1	EAIN-12107-REQ-004	Added	No transaction amount limit
5	0.1	EAIN-12107-REQ-005	Added	Both channels released together
6	0.1	EAIN-12107-REQ-006	Added	Successful payment handling
