12

E2E Flow Test Scenarios

Note to QA:

1. ~~The new~~ Dereg flow is a bit different than the previous one. Use the old flow for reference only.
2. Please **put the following icon at the TS title**:
   - **Pass** - ✅
   - **Failed** - ❌
   - **In Progress** - 🚧
3. Figma: https://www.figma.com/design/I3HOoBRG97sO3Nkjo9dx2l/eAuto-AATF?node-id=2239-2416&p=f&t=jSfWGDlS1S7y0G98-0
4. Environment: [TBC]

Remember to check for E2E Flow Test Coverage:

- Figma Design (UI/UX)
- AATF eDereg Pre-Checking Enquiry Steps
- AATF eDereg Pre-Checking Transaction Listing Page
- AATF eDereg Pre-Checking Transaction Details Page
- JPJ XML Log (Deregistration Pre-Checking)
- BO eDereg Pre-Checking Transaction Listing Page
- BO eDereg Pre-Checking Transaction Details Page
- eDereg Pre-Checking Slip Pengesahan (AATF & BO)

There are no **Trx Status = Pending** because in step 2, if refresh will start back from beginning. does not save the details.

eDereg Pre-Check Flow (Pre-check done in enquiry)

Active

- ~~CPC_E2E_TS1~~: [Approved] Create eDereg Pre-Checking Enquiry with **Trx Status = Approved**, **Enquiry Response = GLB000000I** > Create Deregistration Trx using **MyKad** > Proceed until the **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** > Go to Details Page > Ensure Yes hyperlink is displayed and click it > Redirects to Pre-Check Listing Page > Ensure Step Page, Transaction Listing, JPJ XML Log and Details Page showing correctly
- CPC_E2E_TS2: [Failed - Vehicle Not Exist] Create eDereg Pre-Checking Enquiry with **Trx Status = Failed**, **Enquiry Response = VEL000100E** > Create Deregistration Trx using **MyPR** > At step 2 after error popup, continue with **Payment = OK** > Observe popup details **JPJ Pre-Checking Status = Failed**, **Enquiry Response = VEL000100E** > Click **[Close]** > Observe **Vehicle No.** field is blank > Ensure Step Page, Transaction Listing, JPJ XML Log and Details Page showing correctly
- CPC_E2E_TS3: [Failed - JPJ error code] Create eDereg Pre-Checking Enquiry with **Trx Status = Failed**, **Enquiry Response = VEL000045E** > Create Deregistration Trx using **MyKad** > At step 2 after error popup, proceed with **Payment = RHB API Down** > Ensure error message shown properly > Try again with **Payment = OK** > continue with **Payment = OK** > Observe popup details **JPJ Pre-Checking Status = Failed**, **Enquiry Response = VEL000045E** > Click **[Close]** > Observe **Vehicle No.** field is blank > Ensure Step Page, Transaction Listing, JPJ XML Log and Details Page showing correctly

Expired (After 6 Months)

- ~~CPC_E2E_TS1: [Approved]~~ Create eDereg Pre-Checking Enquiry with **Trx Status = Approved**, **Enquiry Response = GLB000000I** > Patch trx to **expire** (after 6 months) > Create Deregistration Trx using **MyPR** > At step 2, eDereg Pre-Checking error popup, continue with **Payment = OK** > Observe pre-checking popup details **Enquiry Response = GLB000000I** > Click **[Close]** > Ensure Step Page, Transaction Listing, JPJ XML Log and Details Page showing correctly
- CPC_E2E_TS5: [Failed - Vehicle Not Exist] Create eDereg Pre-Checking Enquiry with **Trx Status = Failed**, **Enquiry Response = VEL000045E** > Patch trx to **expire** (after 6 months) > Create Deregistration Trx using **MyKad** > At step 2 after error popup, continue with **Payment = RE** > Ensure payment failed message popup displayed correctly > Click **[OK]** > Ensure **payment history & countdown** popup showed correctly > After countdown finish, system will show the popup to offer purchasing the pre-check > Continue with **Payment = OK** > Observe pre-checking popup details **Enquiry Response = GLB000000I** > Click **[Close]** > Ensure Step Page, Transaction Listing, JPJ XML Log and Details Page showing correctly
- CPC_E2E_TS6: [Failed - JPJ error code] Create eDereg Pre-Checking Enquiry with **Trx Status = Failed**, **Enquiry Response = VEL000100E** > Patch trx to **expire** (after 6 months) > Create Deregistration Trx using **MyPR** > At step 2 after error popup, continue with **Payment = IF** > Ensure payment failed message popup displayed correctly > Click **[OK]** > Ensure **payment history** popup displayed correctly > Click **[Next]** to resubmit **payment failed** multiple times > Ensure system behaviour is acceptable

eDereg Flow (Pre-check done in step 2)

Active

- ~~CPC_E2E_TS7~~: [Approved] Create Deregistration Trx using **MyKad** (ensure VN **does not** have any prior pre-checking trx) > Ensure **pre-checking enquiry response = GLB000000I** > Proceed until the **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** > Ensure Step Page, Transaction Listing and Details Page showing correctly
- CPC_E2E_TS8: [Failed - Vehicle Not Exist] Set **Dereg Enq. Response = VEL000100E** > Create Deregistration Trx using **MyPR** (ensure VN **does not** have any prior pre-checking trx) > At Step 2, ensure **pre-checking enquiry popup** displays with correct details > Click **[Next]** to proceed with **Payment = OK** > Ensure **Pre-checking enquiry result** shows popup with correct details > Click [Close] > Redirect to step 2 with cleared out **Vehicle Number** field > Ensure Step Page, Transaction Listing and Details Page showing correctly
- CPC_E2E_TS9: [Failed - JPJ error code] Set **Dereg Enq. Response = VEL000045E** > Create Deregistration Trx using **MyPR** (ensure VN **does not** have any prior pre-checking trx) > At Step 2, ensure **pre-checking enquiry popup** displays with correct details > Click **[Next]** to proceed with **Payment = OK** > Ensure **Pre-checking enquiry result** shows popup with correct details > Click [Close] > Redirect to step 2 with cleared out **Vehicle Number** field > Set eSim **Dereg Enq. Response = GLB000000I** and proceed again until complete > Ensure Step Page, Transaction Listing, JPJ XML Log and Details Page showing correctly

Expired (After 6 Months) [note: maybe buat precheck step 2, patch expired, and do again]

- ~~CPC_E2E_TS10: [Approved] Create deregistration until step 2 > Proceed with purchasing~~ **Pre-Checking = Approved** > Do not continue with deregistration > Ask dev to patch pre-check transaction to **Expired** > Continue to create Deregistration until **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** > Go to Details Page > Ensure Yes hyperlink is displayed and click it > Redirects to Pre-Check Listing Page > Ensure Step Page, Transaction Listing, JPJ XML Log and Details Page showing correctly
- CPC_E2E_TS11: [Failed - Vehicle Not Exist] Create deregistration until step 2 > Proceed with purchasing **Pre-Checking = Approved** > Do not continue with deregistration > Ask dev to patch pre-check transaction to **Expired** > Continue to create Deregistration until **JPJ Pre-Checking = VEL000045E** > Ensure error popup is displayed correctly > Ensure details in eDereg Pre-Checking Listing are displayed correctly > Set eSim **Dereg Enq. Response = GLB000000I** > Continue with eDereg **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** > Go to Details Page > Ensure Yes hyperlink is displayed and click it > Redirects to Pre-Check Listing Page > Ensure Step Page, Transaction Listing, JPJ XML Log and Details Page showing correctly
- CPC_E2E_TS12: [Failed - JPJ error code] Create deregistration until step 2 > Proceed with purchasing **Pre-Checking = Approved** > **Do not** continue with deregistration. Stay in Step 2 > Ask dev to patch pre-check transaction to **Expired** > Continue until system prompts to do pre-checking again > Set **RHB Transfer = RHB API down** > Attempt to make payment > Unable to resubmit payment > Ensure error popup is displayed correctly > Ensure **Tx Status = Cancelled**, ensure **UNABLE to resubmit** the transaction from pre-checking transaction listing > Make sure the Step Page, Transaction Listing, JPJ XML Log and Details Page are showing correctly

Details to check:

1. Pre-checking details
   a. Enquiry details shown correctly
   b. Correct behaviour if **enquiry status = Failed**
2. Payment details
   a. Payment details shown correctly when **Payment = Failed**
   b. Correct behaviour when proceeding with failed payments
3. Yes hyperlink in details page
   a. Positioned under **e-Invoice Validation Date:**
   b. Clicking it will redirect to the **Pre-Checking Transaction Listing**
   c. The **Vehicle No.** field will be automatically filled with the VN from the details page
   d. The listing will show **all existing transactions**
4. JPJ XML Log
   a. Check with Vehicle No.
   b. Check with Transaction Ref. ID

Faiz's Notes:

1. E2E covers:
   a. ~~TS1 - initial enquiry ok~~
   b. ~~TS2 - payment ok, enquiry fail~~
   c. ~~TS3 - payment ok, enquiry fail RHB API Down~~
   d. ~~TS4 - payment ok, enquiry ok~~
   e. ~~TS5 - payment fail 1 time, proceed payment ok, enquiry ok~~
   f. ~~TS6 - payment fail multiple time~~
   g. ~~TS7 - all ok, no negative~~
   h. ~~TS8 - payment ok, initial enquiry fail~~
   i. ~~TS9 - payment ok, initial enquiry fail, enquiry ok 2nd time~~
   j. ~~TS10 - approve > expire > approve again~~
   k. ~~TS11 - approve > expire > fail > pass~~
   l. ~~TS12 - approve > expire > fail~~
2. To cover:
   a. ~~JPJ XML Log~~
      i. ~~Search VN~~
      ii. ~~Search Trx Ref No.~~
   b. ~~RHB API Down~~
   c. ~~After Reset Payment - REV0000016~~
   d. ~~Multiple AATF Scenario~~
   e. ~~eDereg Pre-checking expired Cronjob~~

Functional Scenarios

5

Cronjob

For cronjob, can ask dev to manually trigger

Any status other than approved will expire after a day

TS No.	Trx Status	Payment	Steps		Expected Results	QA	Test Result (P/F)
CJ_TS1	FAILED	❌	1. Create new Deregistration until step 2 2. Proceed with purchasing Pre-Check with **RHB Payment = Failed**, **JPJ Pre-Check Status = Failed** 3. Wait until cronjob runs	CRONJOB AUTORUN DAILY AT 11:59:59 PM	Ensure eDereg Pre-Checking Transaction Listing & Details Page: • **Trx Status = Expired** (Cronjob pickup the trx) • **Remarks = Transaction Expired** • All other details **remain unchanged**		
CJ_TS2		✅	1. Create new Deregistration until step 2 2. Proceed with purchasing Pre-Check with **JPJ Pre-Check Status = Failed** 3. Wait until cronjob runs		Ensure eDereg Pre-Checking Transaction Listing & Details Page: • **Trx Status = Failed** (Cronjob didn't pickup the trx) • All details **remain unchanged**		
CJ_TS3	EXPIRED	❌	1. Create new Deregistration until step 2 2. Proceed with purchasing Pre-Check with **JPJ Pre-Check Status = Passed** 3. Ask dev to run cronjob. Make sure the status is changed to **EXPIRED** 4. Wait until next cronjob runs		Ensure eDereg Pre-Checking Transaction Listing & Details Page: • **Trx Status remain as Expired** (Cronjob didn't pickup the trx) • All details **remain unchanged**		
CJ_TS4	APPROVED	✅	1. Create new Deregistration until step 2 2. Proceed with purchasing Pre-Check with **JPJ Pre-Check Status = Approved** 3. Wait until cronjob runs		Ensure eDereg Pre-Checking Transaction Listing & Details Page: • **Trx Status remain as Approved** (Cronjob didn't pickup the trx) • All details **remain unchanged**		
CJ_TS5	PENDING	❌	1. Create new Deregistration until step 2 2. Proceed until the pre-checking popup appears. Do not proceed with payment 3. Wait until cronjob runs		Ensure eDereg Pre-Checking Transaction Listing & Details Page: • **Trx Status = Expired** (Cronjob pickup the trx) • **Remarks = Transaction Expired** • All other details **remain unchanged**

Other Functions

TS No.	Scenario	Page	Steps	Expected Results	QA	Test Result (P/F)
OF_TS1	Cancel pre-checking in step 2	Deregistration - Step 2	After the popup for the pre-check appears, click **Cancel** button	**Ensure:** 1. The popup is removed 2. Display error message under the Vehicle No. field "**Approved eDereg Pre-Checking within 6 months is required to proceed**". Ensure the colour is bright red		
OF_TS2	Leave the Vehicle No. field blank		Fill in all details except for the **Vehicle No.** field	**Ensure:** 1. Show popup that says "**Vehicle No. is required.**" 2. Vehicle number field will be yellow with red text inside		
OF_TS3	Different input types in Vehicle No. field		Enter characters **other than numbers and letters**	The field will not accept characters other than numbers and letters		
			Enter **spacebar**	The field will automatically remove the spacebar		
			Enter **lowercase** letters	The field will automatically capitalize the lowercase letters		
OF_TS4	Pre-Checking Reset Payment	During purchasing pre-checking enquiry in Deregistration step 2	1. Create new Deregistration Transaction. Ensure VN **does not** have approved pre-check 2. In step 2, proceed with pre-checking **RHB Payment = IF** > Provide Trx ID to dev for reset payment 3. Click **[Next]** to retrigger **eDereg Pre-Checking RHB Payment** 4. Observe popup message 5. Proceed until able to do Deregistration 6. Complete the Deregistration until **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK**	Ensure: 1. Popup message after retrigger eDereg Pre-Checking : "Rhb payment internal error, please try again later." 2. Able to proceed after resetting payment		
OF_TS5	JPJ XML Log		1. Login as **BO** and go to JPJ XML Log 2. Enter **Vehicle No.** that was purchased pre-check through Deregistration step 2 3. Enter **Transaction Ref No.** (can get in pre-check listing page for pre-check that was purchased through Deregistration step 2	Ensure all details displayed correctly

AATF Multiple Users

TS No.	Trx Status	Multiple Users	Steps / Expected Results	QA	Test Result (P/F)
MU_TS1	Approved	2 Users Same company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **same company** 1. User A go to create new Deregistration. At step 2, input vehicle number. 2. Continue until complete **Pre-Checking Enquiry = Successful** 3. Proceed until the **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** 4. User B go to create new Deregistration. At step 2, input the same vehicle number 5. Proceed until the **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** 6. Ensure eDereg Pre-Checking Transaction Listing Page shows 2 different transactions		
MU_TS2		2 Users Different Company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **same company** 1. User A go to create new Deregistration. At step 2, input vehicle number. 2. Continue until complete **Pre-Checking Enquiry = Successful** 3. Proceed until the **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** 4. User B go to create new Deregistration. At step 2, input the same vehicle number 5. Proceed until the **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** 6. Ensure eDereg Pre-Checking Transaction Listing Page shows 2 different transactions		
MU_TS3	Failed (Payment)	2 Users Different Company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **different company** (resubmit through step 2 Deregestration) 1. User A go to create new Deregistration. At step 2, input vehicle number. Ensure vehicle number does not have valid pre-check 2. Proceed until **Pre-Check Payment = Failed (Due to RE)** 3. User B go to create new Deregistration. At step 2, input the same vehicle number 4. Proceed until **Pre-Check Payment = Failed (Due to RE)** 5. Wait until countdown finish 6. User A proceeds with payment until **Payment = OK** 7. User B attempts to make payment also 8. Observe behaviour after payment		
MU_TS4		2 Users Same company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **same company** (retry payment at the same time) 1. User A go to create new Deregistration. At step 2, input vehicle number. Ensure vehicle number does not have valid precheck 2. Proceed until Pre-Checking payment with **Payment = IF** 3. User B opens the transaction through pre-checking transaction listing 4. Both users attempt to retry payment at the same time 5. System prompt error message "Payment Paid" 6. Click [OK] button and redirect User B to Transaction Listing page 7. Prompt another error message "**Transaction Approved**" 8. Click [OK] button and system pre-search the transaction 9. **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** 10. Ensure Step Page, Transaction Listing and Details Page showing correctly		
MU_TS5	Failed (JPJ Pre-Checking Enquiry)	2 Users Different Company	Pre-requisite: AATF User A (Main) & User B (Main) are from **different company** (attempt to make payment after JPJ Pre-Checking = Failed) 1. User A go to create new Deregistration. At step 2, input vehicle number. Ensure vehicle number does not have valid pre-check 2. Proceed with payment but **JPJ Pre-Checking = Failed (VEL000100E)**, **Trx Status = Failed** 3. User B searches the pre-check transaction in the eDereg Pre-Checking Enquiry Transaction Listing page 4. Attempt to make payment 5. System prompt error message "Duplicate RHB payment requests have been detected. This RHB payment request will not be sent. Please refresh the page to view the payment details." 6. Click [OK] button, redirect User B to Step 3 and show JPJ Pre-Checking result		
MU_TS6		2 Users Same company	Pre-requisite: AATF User A (Main) & User B (Main) are from **same company** (resubmit from trx listing after JPJ Pre-Checking = Failed) 1. User A go to create new Deregistration. At step 2, input vehicle number. Ensure vehicle number does not have valid pre-check 2. Proceed until **Pre-Check Enquiry = VEL000100E** 3. User B search and resubmit the transaction in Transaction Listing page 4. System redirect User B to Step 3 and show JPJ Pre-Checking result 5. Ensure Step Page, Transaction Listing, JPJ XML Log and Details Page showing correctly		
MU_TS7	Pending	2 Users Different company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **different company** 1. User A go to create new Deregistration. At step 2, input vehicle number. 2. Stop until pre-checking enquiry popup appears 3. User B go to eDereg Pre-Checking Transaction Listing and search the transaction 4. Proceed with the eDereg Pre-Checking until **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** 5. User A continues with the Deregistration process until the status for the Deregistration Transaction is **Trx Status = Approved**, **Payment = OK** (This status is for the **Deregistration** transaction)		
MU_TS8		2 Users Same company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **same company** (submit payment at the same time) 1. User A go to create new Deregistration. At step 2, input vehicle number. Ensure vehicle number does not have valid pre-check 2. Stop until pre-checking enquiry popup appears 3. User B go to eDereg Pre-Checking Transaction Listing and search the transaction 4. Both users attempt to make payment at the same time (Click **[Yes]** button on payment popup) 5. System prompt error message "**Duplicate RHB payment requests have been detected. This RHB payment request will not be sent. Please refresh the page to view the payment details.**" 6. User A redirected to Deregistration Step 2 with pre-checking enquiry popup 7. User B tries again using the same Vehicle Number until pre-checking status is **Trx Status = Approved**, **Payment = OK**, **JPJ Pre-Checking = OK** 8. Check details after payment 9. User A continues with the Deregistration process until Deregistration status is **Trx Status = Approved**, **Payment = OK** (This status is for the **Deregistration** transaction)		
MU_TS9	Cancelled	2 Users Same company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **same company** (refresh Step 2 Trx Status = Cancelled) 1. User A go to create new Deregistration. At step 2, input vehicle number without valid pre-check 2. Proceed until pre-check enquiry pops up, **Trx Status = Pending** 3. User B resubmit transaction from Transaction Listing Page 4. User A proceed to make payment but **Payment = Failed (due to IF)** 5. **BackOffice** user cancel the transaction vio BO Transaction Listing page 6. User A and User B refresh Step 2 7. System prompt error message "**Transaction Cancelled**" 8. Click [OK] button and system pre-search the trx in Transaction Listing page, **Trx Status = Cancelled** 9. Ensure Step Page, Transaction Listing and Details Page showing correctly		
MU_TS10		2 Users Different company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **different company** (resubmit and make/retry payment after cancel) 1. User A go to create new Deregistration. At step 2, input vehicle number without valid pre-check 2. Proceed until pre-check enquiry pops up, **Trx Status = Pending** 3. User B searches the transaction from Transaction Listing Page 4. User A proceed to make payment but **Payment = Failed (due to IF)** 5. **BackOffice** user cancel the transaction vio BO Transaction Listing page 6. User B searches resubmit transaction from Transaction Listing page 7. System prompt error message "**Transaction Cancelled**" 8. Click [OK] button and system pre-search the trx in Transaction Listing page, **Trx Status = Cancelled** 9. User A attempt to retry payment / make payment 10. System prompt error message "**Transaction Cancelled**" 11. Click [OK] button and system pre-search the trx in Transaction Listing page, **Trx Status = Cancelled** 12. Ensure Step Page, Transaction Listing and Details Page showing correctly		
MU_TS11	Expired	2 Users Different Company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **different company** (attempt refresh & resubmit after Trx Status = Expired) 1. User A go to create new Deregistration. At step 2, input vehicle number without valid pre-check 2. Proceed until pre-check enquiry pops up, **Trx Status = Pending** 3. User B search the transaction in Transaction Listing page 4. Wait until cronjob runs, **Trx Status = Expired** 5. User A refresh Step 2 6. System shows the step 2 page for Deregistration Transaction 7. User B attempts to resubmit transaction from Transaction Listing page 8. System displays error message "**Transaction Expired**" 9. Click [OK] button and system pre-search the trx in Transaction Listing page, **Trx Status = Expired**		
MU_TS12		2 Users Same company	Pre-requisite: AATF User A (Main) & User B (Sub) are from **different company** (make and retry payment after Trx Status = Expired) 1. User A go to create new Deregistration. At step 2, input vehicle number without valid pre-check 2. Proceed until pre-check enquiry pops up, **Trx Status = Pending** 3. Open another tab and login with User B AATF account 4. User B search the transaction in Transaction Listing page 5. User A proceed to make payment but **Payment = Failed** (due to IF), **Trx Status = Failed** 6. Wait until cronjob runs, **Trx Status = Expired** 7. User B attempt to make payment 8. System prompt error message "**Transaction Expired**" 9. Click [OK] button and system pre-search the trx in Transaction Listing page, **Trx Status = Expired** 10. User A attempt to retry payment 11. System prompt error message "**Transaction Expired**" 12. Click [OK] button and system pre-search the trx in Transaction Listing page, **Trx Status = Expired**
